Agenda Item: Challenges to Absentee and Early Voting Ballots

Summary:

[Numbered Memo 2022-05](#) provides guidance for county boards to challenge ineligible absentee-by-mail and early voting ballots. The qualifications for all voters, including early and absentee voters, are judged as of Election Day.

**What if a voter dies after voting absentee-by-mail or early voting but before Election Day?**

- Prior to taking any action, obtain official confirmation of the death. Permissible sources include the DHHS List Maintenance Reports, death certificate from the local register of deeds, or a written, signed notification from a near relative.
- Follow the Process for Disapproving the Ballot Application (if applicable) and Challenging the Ballot above.
- Remove the voter pursuant to G.S. 163-82.14(b).

**Voter Registration Denied**

G.S. 163-82.7(g)(2) provides that when a voter verification mailing and second notice verification mailing are “returned as undeliverable after a person has already voted by absentee ballot, then that person's ballot may be challenged in accordance with G.S. 163-89.”

<b>16 Ballots Requiring Board Review - Disapproval<sup>6</sup></b>	
16	Civilian ballot with incomplete witness information. Ballot has been spoiled and a new ballot issued

<sup>1</sup>The Resolution to Delegate Administrative Duties Relating to Absentee Voting to the Director and Staff approved by the board on 10/17/23 states that “The board will not review individual ballot envelopes that have been recommended by staff for approval and will accept staff’s recommendation for those ballot envelopes and photo ID documentation. The board will spot-check a minimum of two envelopes and accompanying photo ID documentation to ensure accuracy and consistency. The board reserves the right to review all ballot envelopes that have been recommended by staff for approval.”

<sup>2</sup> Per Numbered Memo 2020-25, these ballots should be approved by the board if the board does not unanimously conclude that the exception form is false.

<sup>3</sup> Numbered Memo 2021-03 provides that when the ballot is inside the executed ballot envelope which is not sealed but the ballot envelope is received in a sealed return envelope, this anomaly is not a deficiency. Staff is instructed to re-seal the return envelope with a notation of “sealed in return envelope” and the county board should open the return envelope and address the ballot at its next absentee meeting.

<sup>4</sup> Numbered Memo 2021-03 states “A voter may respond to a notification that their ballot is missing photo ID documentation by stating that it is in the ballot envelope. If this occurs, staff must defer the review of the photo ID documentation to the next absentee board meeting, when the county board can review the application and, if approved, open the ballot envelope and confirm photo ID compliance.”

<sup>5</sup> Numbered Memo 2020-23 states that delivery of an absentee ballot by a person other than the voter, the voter’s near relative, the voter’s legal guardian, or a person of the voter’s choice when the voter needs assistance due to disability, is not sufficient evidence in and of itself to establish that the voter did not lawfully vote their ballot. A county board shall not disapprove an absentee ballot solely because it was delivered by someone who was not authorized to possess the ballot.

<sup>6</sup> Numbered Memo 2020-25 states “Whether the county board delegates the initial review of absentee envelopes to staff or chooses to have a bipartisan team of board members review envelopes during the meeting, all board members present at the meeting must approve or disapprove the ballots.”

*The Resolution to Delegate Administrative Duties delegated the task of “Inspecting ballot envelopes and return envelopes for deficiencies and contacting voters as required by Numbered Memo 2021-03.”*

### **Agenda Item:** Tabulate Early Voting

#### **Summary:**

Previously, county boards of elections could tabulate early voting results before the close of polls, then report those results almost immediately at 7:30 p.m. on election night. Under changes made in [Session Law 2023-140](#) (Section 29), county boards must wait until 7:30 p.m. to “close the polls” on early voting tabulators and begin the process of counting and reporting results of ballots cast during the early voting period.

At 7 pm, the board will oversee staff taking preparatory steps to close the Verity Scans, and at 7:30 the scanners will be closed, and results pulled. The results will be read into the Verity Count system.

#### **Procedure:**

- At 7:00 pm the handle seal number on each scanner will be compared with the seal number listed above which was logged by the precinct officials at the end of voting Saturday. The scanners will be turned on.
- The vDrive security seal number on the Verity Scan will be compared with the number listed above which was logged during Logic and Accuracy testing.
- At 7:30 pm, the Verity Scans can be closed. The results media will be imported into the Verity Count system. From the Verity Count system, they will be transferred to the networked computer for upload to the State Board of Elections using a new, unopened thumb drive.
- Board signs results tape from each Scan.
