September 23, 2025

Dear parent/guardian,

During the month of October, Brunswick County Health Services is partnering with Brunswick County Schools to hold in-school flu vaccination clinics. Brunswick County Health Services will offer flu shots for all students who have **not** already received a flu shot.

The goal of this immunization initiative is to reduce illness and absences from influenza.

Vaccines will ONLY be given to students with signed permission forms. Vaccines are administered by Health Services nurses.

Information for clinic dates, school locations, and permission forms will be posted on the Brunswick County Health Services webpage and on the Brunswick County School website.

We encourage you to take advantage of this opportunity. If you would like your child/children to participate in the school flu vaccination clinics, please complete the permission form and return it to your child's school.

Usually, individuals with insurance will not have any out-of-pocket cost. We will file your insurance. If you are responsible for a co-pay or deductible, we will bill you for that amount.

Students that do not have insurance coverage for vaccines will qualify for state supplied vaccine at no cost. The insurance section on the permission form must be completed. For billing questions and concerns, please call 910-253-2259 or 910-253-2316.

If you have any medical questions or concerns, please talk to your child's healthcare provider.

For general questions, you may contact your school nurse or Brunswick County Health Services at 910-253-2268.

Sincerely,

Stacie Holmes RN, BSN
