Prepared by the Brunswick County Planning Dept. 12/06/2024

Data for Conservation Areas sourced from the North Carolina Natural Heritage Program, Brunswick County zoning data, & municipal zoning data. The North Carolina Natural Heritage Program's Managed Areas data is primarily a collection of fee simple properties and easements where natural resource conservation is one of the primary management goals. It does include a number of properties and easements that are not primarily managed for conservation, but that are of conservation interest. This conservation interest ranges from properties and easements which support rare species and intact, high-quality natural communities to those that are open spaces in places where open space is scarce.
