Raleigh, North Carolina 27699

Reference: Southeastern NC Regional Multi-jurisdictional Hazard Mitigation Plan

Dear Mr. Crew:

We are pleased to inform you that the Southeastern NC Regional Multi-jurisdictional Hazard Mitigation Plan is in compliance with the Federal hazard mitigation planning requirements resulting from the Disaster Mitigation Act of 2000, as contained in 44 CFR 201.6. The plan is approved for a period of five (5) years, to April 25, 2021.

This plan approval extends to the following participating jurisdictions that provided copies of their resolutions adopting the plan:

- Brunswick County, Unincorporated
- Town of Belville
- Town of Carolina Shores
- Town of Shallotte
- Town of Watha
- Town of Wrightsville Beach

The approved participating jurisdictions are hereby eligible applicants through the State for the following mitigation grant programs administered by the Federal Emergency Management Agency (FEMA):

- Hazard Mitigation Grant Program (HMGP)
- Pre-Disaster Mitigation (PDM)
- Flood Mitigation Assistance (FMA)

National Flood Insurance Program (NFIP) participation is required for some programs.

We commend the participants in the Southeastern NC Regional plan for the development of a solid, workable plan that will guide hazard mitigation activities over the coming years. Please note that all requests for funding will be evaluated individually according to the specific eligibility and other requirements of the particular program under which the application is submitted. For example, a specific mitigation activity or project identified in the plan may not meet the eligibility requirements for FEMA funding, and even eligible mitigation activities are not automatically approved for FEMA funding under any of the aforementioned programs.

We strongly encourage each community to perform an annual review and assessment of the effectiveness of their hazard mitigation plan; however, a formal plan update is required at least every five (5) years. We also encourage each community to conduct a plan update process within one (1) year of being included within a Presidential Disaster Declaration or of the adoption of major modifications to their local Comprehensive Land Use Plan or other plans that affect hazard mitigation or land use and development. When the plan is amended or revised, it must be resubmitted through the State as a “plan update” and is subject to a formal review and approval process by our office. If the plan is not updated prior to the required five (5) year update, please ensure that the draft update is submitted at least six (6) months prior to expiration of this plan.

The State and the participants in the Southeastern NC Regional plan should be commended for their close coordination and communications with our office in the review and subsequent approval of the plan. If you or the Southeastern NC Regional community have any questions or need any additional information please do not hesitate to contact Shemeeka Hopkins, of the Hazard Mitigation Assistance Branch at (770) 220-8788 or Linda L. Byers of my staff at (770) 220-5498.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert E. Lowe", with a long horizontal flourish extending to the right.

Reference: Southeastern Regional NC Multi-jurisdictional Hazard Mitigation Plan

Dear Mr. Crew:

This is a follow-up to our previous correspondence of April 26, 2016, in which we approved the Southeastern Regional Multi-jurisdictional Hazard Mitigation Plan and all the participating communities that submitted their resolutions at the time of plan approval. We have recently received from your office the following adoption resolutions for inclusion within this plan and subsequently have approved these communities under the approved Southeastern Regional Multi-jurisdictional Hazard Mitigation Plan:

- City of Northwest
- City of Southport
- Town of Bolivia
- Town of Carolina Beach
- Town of Caswell Beach
- Town of Kure Beach
- Town of Leland
- Town of Oak Island
- Town of Ocean Isle Beach
- Town of Sandy Creek
- Town of St. James
- Town of Varnamtown
- Village of Bald Head Island

The approved participating communities are hereby eligible applicants through the State for the following mitigation grant programs administered by the Federal Emergency Management Agency (FEMA):

- Hazard Mitigation Grant Program (HMGP)
- Pre-Disaster Mitigation (PDM)
- Flood Mitigation Assistance (FMA)

National Flood Insurance Program (NFIP) participation is required for some programs.

We continue to commend the additional participants in the Southeastern Regional Multi-jurisdictional Hazard Mitigation Plan for the development of a solid, workable plan that will guide hazard mitigation activities over the coming years. Please note that all requests for funding will be evaluated individually according to the specific eligibility and other requirements of the particular program under which the application is submitted. For example, a specific mitigation activity or project identified in the plan may not meet the eligibility requirements for FEMA funding, and even eligible mitigation activities are not automatically approved for FEMA funding under any of the aforementioned programs.

We strongly encourage each community to perform an annual review and assessment of the effectiveness of their hazard mitigation plan; however, a formal plan update is required at least every five (5) years. We also encourage each community to conduct a plan update process within one (1) year of being included within a Presidential Disaster Declaration or of the adoption of major modifications to their local Comprehensive Land Use Plan or other plans that affect hazard mitigation or land use and development.

When the Plan is amended or revised, it must be resubmitted through the State as a “plan update” and is subject to a formal review and approval process by our office. If the Plan is not updated prior to the required five (5) year update, please ensure that the Draft update is submitted at least six (6) months prior to expiration of this plan approval.

If you or the participants in the Southeastern Regional Multi-jurisdictional Hazard Mitigation Plan have any questions or need any additional information please do not hesitate to contact Shemeeka Hopkins of the Hazard Mitigation Assistance Branch, at (770) 220-8788 or Linda L. Byers of my staff at (770) 220-5498.

Sincerely,
