December 3, 2015

Mr. Tom Collins, EM Director

Pender County

P.O. Box 28

Burgaw, NC 28425

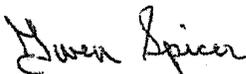

Dear Mr. Collins:

This letter is in reply to your request for a description of participation from the City of Northwest in the planning process for the Southeastern NC Regional Hazard Mitigation Plan project. Due to our extremely small staff, we have been unable to have a representative attend any of the planning meetings. The City has utilized the project website which has been very instrumental in reviewing what has been proposed and beneficial in relaying to Council what has transpired through the meetings.

City staff maintains frequent contact with county officials, not only regarding water/sewer issues, but all emergency management situations. Based on our previous work with Brunswick County Planning and Emergency Management officials on past projects, we are satisfied that the proposed draft plan will provide the necessary remedies for all of Brunswick County, including the City of Northwest, in the event of a major disaster.

The Town appreciates your work on this project. Please contact me if you have any questions.

Sincerely,

Gwen Spicer

Town Clerk

Cc: Dale Holland, HCP

December 1, 2015

Mr. Charles Collins, Director
Pender County Emergency Management
PO Box 28
Burgaw, NC 28425

Dear Mr. Collins:

The Village of St. Helena, although not represented at every meeting, kept the Village Council up to date on the newly proposed Southeastern NC Regional Hazard Mitigation Plan. Our building inspector, which also works with the Town of Burgaw, did an excellent job of staying on top of the proposal and any changes that occurred during the planning process and we feel comfortable with the plan as it affects the Village. The council is in agreement with it at this point.

I might point out that not all towns are full time, nor have full time employees to attend meetings during the day. Consideration for some evening meetings in the future would enable us to attend.

Again our council has reviewed the proposed plan on several occasions and at this time is in agreement with the plan as proposed. There may be some concerns during the public hearing phase, but it is our intent to approve the plan upon receipt and review of the adopted final proposal.

Respectfully,

Robert M. Barnhill
Mayor

TOWN OF WATHA
1059 Camp Kirkwood Rd
Watha, NC 28478

November 30, 2015

Mr. Tom Collins, EM Director
Pender County
P.O. Box 28
Burgaw, NC 28425

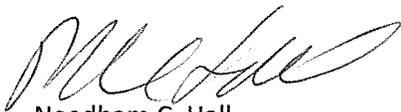

Dear Mr. Collins:

Please be advised that the Town of Watha, Pender County, fully intends to adopt and implement the proposed Southeastern NC Regional Hazard Mitigation Plan pending approval from FEMA. We participated in the 2010 Pender County Hazard Mitigation Plan, but understand and appreciate the need for broader regional cooperation.

Due to our limited staff, we have been unable to have a representative attend any of the planning meetings. However, we monitored the planning process via the project website and informational emails. Our Town Clerk maintains frequent contact with county officials regarding general issues, including emergency management situations. Based on our previous work with Pender County Planning and Emergency Management officials on past projects, we are satisfied that the proposed draft plan will provide the necessary remedies for all of Pender County, including the Town of Watha, in the event of a major disaster.

The Town appreciates your work on this project. Please contact me if you have any questions.

Sincerely,

Needham C. Hall
Mayor
