Site Plan Instructions

- 1) Draw the property and include all of the property dimensions.
- 2) Draw all of the existing and proposed structures on the property and indicate their distances to each other and the property lines.
- 3) Indicate the dimensions of the existing and proposed structures on the property.
- 4) Indicate any easements, rights-of-way, encroachments, artificial drainage, and all other appurtenances.
- 5) If wells are on the property: Indicate the location of the well(s) on the property.
- 6) If served by public water: Indicate the location of the water meter on the property.
- 7) Indicate the location of the septic system on the property.
- 8) Indicate the location and label the name of the street(s) adjacent to the property.
- 9) Indicate the location of any wells on the surrounding properties and their distance to your property line(s).

A large, empty rectangular box with a thick black border, intended for the user to draw the site plan according to the instructions provided above.
